

PHILLIPS-MEDISIZE AT MD&M EAST 2017

Hudson, WI – June 6, 2017 – Phillips-Medisize, a Molex company, will once again attend Medical Design and Manufacturing East 2017 (MD&M East) in New York, New York, as well as sponsor the Medical Design Excellence Award (MDEA).

During the MD&M East, Phillips-Medisize, a Molex company, representatives will be on hand to discuss end-to-end solutions for connected health. Join us in booth 1521 to learn about the Company's design, development and manufacturing solutions for your next connected health device.

This is an exciting year for Phillips-Medisize at the MDEA ceremony. The company is a supplier to multiple finalists and Matt Jennings, Phillips-Medisize Chairman and CEO, will present the Lifetime Achievement Award to this year's recipient Dr. Robert E. Fischell. This award recognizes an industry pioneer in the medical device innovation, who has had a significant and demonstrable impact on technological, business, and cultural advancements in the world. The MDEA ceremony is the evening of Tuesday, June 13.

MD&M East is the largest medtech event on the east coast, connecting thousands of engineers and executives, as well as hundreds of leading suppliers. MD&M East is held at the Jacob K. Javits Center, New York, New York on June 13-15, 2017.

About Phillips-Medisize

Phillips-Medisize is a leading global outsource provider of design and manufacturing services to the drug delivery, consumable diagnostics and medical device, and specialty commercial markets. 85% of the company's revenue comes from drug delivery, medical device, primary pharmaceutical packaging and diagnostic products such as: disposable insulin pens, glucose meters, specialty inhalation drug delivery devices, single use surgical devices and consumable diagnostic components.

Phillips-Medisize features a list of blue chip medical device, pharmaceutical and commercial customers. The company partners with its customers to provide design and development services which accelerate speed to market of innovative products and then works with its customers to deploy advanced automated assembly and quality control technologies which reduce manufacturing cost while improving quality. The company's core advantage is the knowledge of its people to integrate design, molding, and automation to drive low cost and high quality manufacturing solutions.

Phillips-Medisize is headquartered in Hudson, WI, and employs over 5,400 people in 21 locations throughout the United States, Europe, Mexico and China. The company operates a global network of design centers with hubs in Hudson, WI (USA) and Struer, DK.
